This presentation is being furnished by Warmup Ventures strictly on a confidential basis. It is intended solely for informational purposes and should not be regarded as an offer to sell, an offer for subscription, or a solicitation of an offer to buy the securities or other investments mentioned herein. It is intended exclusively for the recipient and must not be photocopied, reproduced, or distributed to others without prior written consent. This document is neither a prospectus nor an invitation.

Investments in securities and equity-related instruments are subject to market risks, which may arise from company, industry, political, economic (domestic and global), and other factors. Investors should carefully read all relevant disclosure documents before making any investment decisions. The information provided herein is subject to change without notice, and recipients are encouraged to rely on their own investigations and seek professional advice.

There is no assurance or guarantee that the objectives of any portfolio or scheme advised or managed by Warmup Ventures will be achieved. Past performance is not indicative of future results and is subject to inherent risks and rewards.

The recipient should understand that this presentation does not disclose all potential risks and characteristics of the investments. It is strongly advised to consider all risk factors, including financial conditions and suitability to risk-return profiles, and seek professional advice before investing.

As with any investment, the value of a portfolio may fluctuate based on various factors affecting the capital market. For tax implications, investors are advised to consult their own professional tax advisors.

/ India is where China was in 2007

GDP (current US\$)

GDP per Capita (US\$)

India's decade has arrived — poised for explosive growth, just as China was in 2007

/ India Is Expected To Produce Over 280 Unicorns By 2030

/And Micro VC Funds Are In Best Position To Capitalize On This Opportunity

**Agility:**

Micro VCs quickly deploy capital to support early-stage startups when it's most critical.

Targeted Investments:

Focus on identifying and nurturing high-potential startups at the seed and pre-seed stages.

**Close Involvement:**

Provide hands-on support, mentorship, and network access to boost startup success rates.

**Underfunded Segments:**

Address the seed-stage funding gap, capturing value early in the startup lifecycle.

**Enhanced Returns with Flexibility:**

Micro VCs offer significant return potential while providing greater flexibility via LP engagement.

With 280+ unicorns projected by 2030, **Micro VCs are uniquely positioned to spot winners in India's thriving market.**

/ So, We Started **Warmup Ventures** In 2023

/ Our Diverse Community Is Our Unique Advantage To Drive Disproportionate Returns

Warmup Community of Investors and Advisors across different stages and sectors includes

1. **Series A and Unicorn stage companies'** – First-generation tech founders having raised growth capital from VCs & PEs across sectors.
2. **Seed to IPO Founders** - Founders who have built high growth profitable businesses and seen the journey to successful IPOs.
3. **Owner led business** - 2nd, 3rd generation of progressive legacy businesses.
4. **Venture Capitalists** - GPs of experienced venture capital funds
5. **Expert Professionals** - Tech and Business CXOs of MNCs and Growth stage startups

/ Portfolio Overview Fund 1

/ Why Warmup Is Different

We Empathize With Founders In Their Journey, As We Have Been There, Done That!

Startup Investment Success by Venture Capitalist Type

Source

Investment success is defined as the company going public or exiting at a higher value than the total capital raised

Research has proven that Startup founders turned VC have the highest success rates on their investments (nearly 30%), followed by professional VCs (nearly 23%)

Emerging Trend, Founders prefer

**"Founder Turned Investors"
over "Traditional Investor"**

/ 45+ YEARS OF EXPERIENCE ACROSS ENTREPRENEURSHIP, STARTUP INVESTMENTS, TECHNOLOGY, SCALING BUSINESSES, VENTURE FUNDING, AND STRATEGIC ADVISORY

**Sharad
Bansal**

/ Warmup Ventures - Fund II

We are a sector-agnostic micro-VC fund backing visionary founders and disruptive innovations in emerging industries. We invest at the early stage, de-risking through hands-on operational support to drive success.

Financial Capital

- Seed to Series-A capital from INR 4-7 Cr per startup
- Reserved follow-on capital for our mature portfolio companies

Human Capital

- We operate with a founder-first philosophy, leveraging human capital to drive exceptional outcomes and build lasting brand value for the fund.
- We provide strategic and operational resources (technology, network access, product, marketing and fundraising)

We aim to build a portfolio of 25-30 startups poised at the inflection point of rapid growth.

/ Our Investment Thesis

Deep-Tech & Frontier-Tech

- AI
- Semiconductors
- Spacetechnology,
- Defense technology.
- Quantum computing and blockchain

Businesses with **IP-driven models**, high entry barriers, and defensible moats.

Climate-Tech & Sustainability

- Renewable energy
- Energy storage,
- Recycling, and waste management.
- Differentiated technologies in carbon credits, ESG solutions, and eco-friendly alternatives.

Scalable impact solutions with robust business models aligned with net-zero goals and the Paris Agreement.

D2C enabler tech platforms in these niche

- Scalable Infrastructure for Rapid D2C Growth
- Driving Cost Efficiency with Targeted Marketing and Analytics
- End-to-End Solutions to Streamline D2C Operations
- Recurring Revenue Models for Predictable Growth
- Tech-Driven Innovation for Operational Excellence

Tech **platforms enabling D2C brands** to scale efficiently with cost-effective, end-to-end solutions and predictable revenue models.

We employ a hybrid strategy to maximize fund returns, focusing on three core sectors, while remaining open to high-conviction opportunistic investments.

[Link of our detailed thesis](#)

/ Key Market Drivers Supporting Our Investment Thesis

Rising Indian deep-tech ecosystem

Sustainable technology landscape in India

The consumer market is experiencing unprecedented growth

Government initiatives: Introduction of the National Deep Tech Startup Policy (NDTSP) to stimulate innovation and economic growth.
[Ankur Capital](#)

Global ranking: India ranks 6th globally with over 3,600 deep-tech startups.
[BusinessWorld](#)

Market growth: The deep-tech market is projected to grow at a CAGR of 20.63% from 2024, reaching \$276 billion by 2030.

Strategic exits: Increasing mergers and acquisitions by tech giants across sectors like healthcare, energy, and robotics.

Government support: The Indian govt has introduced National Deep Tech Startup Policy (NDTSP) to stimulate innovation and growth, alongside a proposed ₹25,000 crore deep-tech fund
[Public Services Assurance](#), [Yourstory](#)

Sector growth: Long-term expansion in electric vehicles and renewable energy sectors.

Consumer demand: Growing preference for eco-friendly solutions due to rising environmental awareness.

Global alignment: Commitment to international sustainability goals for scalable environmental impact

Market growth: D2C e-commerce to grow at 25% CAGR from 2024-2029, surpassing \$100B by 2025.

Consumer trends: 1/3 of consumers shop via social platforms, with 77M online shoppers engaging in 2021.

Revenue potential: D2C brands earned \$4B in 2022, with room for growth from online penetration and rising incomes.

Attractive exits: Opportunities for M&A and partnerships with larger tech companies as the D2C sector matures and scales.

/ Our Investment Process To Find Tomorrow's Winners

/ We Have Access To The Best Deal Flow

Startups
reviewed yearly

2500+

Deep
evaluation

200+

Yearly
commitments

10-15

/ Portfolio Construction Strategy

/ We Aim To Deliver VC-like Returns With PE-like Risk Management

/ We Aim To Deliver VC-like Returns With PE-like Risk Management

VC-like Returns

Access high-quality deal flow through our extensive network.

Conduct primary research-driven investments.

Leverage industry and LP expertise to guide startups.

Focus on innovative and scalable solutions.

PE-like Risk Management

Implement rigorous due diligence processes.

Provide active portfolio company support.

Establish strong corporate governance.

Develop structured exit strategies.

We reduce startup mortality rates by offering hands-on operational support to drive 20-30X returns.

/ Our Right To Win

Founder-led insight

Our first-hand entrepreneurial experience enables us to understand founder needs, driving superior outcomes.

Active value addition

We actively support portfolio companies in GTM, product development, fundraising etc to accelerate growth.

Diverse network

Our community includes 1st gen tech founders as well as 2nd gen entrepreneurs running corporate houses who provide mentorship deal flow and exit opportunities.

Double down

We reserve funds for follow-on investments, focusing on building a concentrated portfolio of high-potential winners.

Select LP Base

We have consciously chosen 50% of our LPs who are ex-founders/CXOs, offering mentorship to enhance portfolio performance.

LP Engagement

We provide an engaging experience for LPs, enabling them to actively guide and learn from our founders.

At the core, every action we take is to become a VC that founders want on their cap table

/ Exit Strategy To Maximize Return

Strategic entry valuations

Disciplined Investment Approach: We invest in companies with valuations < 80 Cr million, ensuring substantial upside potential.

Avoiding Overvaluation: We adhere to standard valuation methodologies, avoiding overpricing due to FOMO.

Active portfolio management

Double-down Carefully: We regularly monitor company performance to make informed decisions on select follow-on investments

Tailored Exit Strategies: We develop customized exit plans for each portfolio company, considering industry dynamics, company maturity, and potential acquirers.

Preferred exit routes

Focus on M&A and Secondary Sales: We prioritize secondary exits and acquisitions over IPOs, recognizing the higher likelihood of these strategies.

Leveraging Strategic Networks: One of our founders, Yogesh, utilizes his extensive corporate network to identify and facilitate strategic acquisition opportunities for our portfolio companies.
